“We took the principles of the business MBA and the knowledge we have in the healthcare space and blended them together to create a program that teaches healthcare professionals how to deal with change in today’s disruptive environment.”

- Jack Welch

JACK WELCH MBA
WITH HEALTHCARE CONCENTRATION

Founded by celebrated business leader Jack Welch and ranked a top online MBA program by The Princeton Review, Poets & Quants, and CEO Magazine, the Jack Welch Management Institute provides game-changing education that drives real results for our students.

THE JWMI DIFFERENCE:

Proven ROI—2 out of 3 MBA students receive a promotion or raise while in the program.

Learn on Monday. Apply on Tuesday.—By bringing actual problems from the healthcare industry into the classroom, students are able to apply the curriculum on the job the next day.

Study with Jack Welch & Other Top CEOs—As part of our Experts of Practice lecture series, you will learn proven business and leadership lessons from Jack Welch and CEOs from Cleveland Clinic, Medtronic, Tampa General Hospital and over 3-dozen other high profile companies.

Top-tier Faculty—Serving as your mentors, JWMI faculty, ranked #1 in Overall Quality and #1 in Accessibility and Responsiveness bring decades of professional experience to the program working for top companies.

The Student is our Customer—Unlike traditional universities, JWMI puts the student first. Our success is based on your satisfaction.

Flexible Schedule—Our interactive, 100% online format offers you the opportunity to advance your education without interrupting your career.
Today, healthcare systems face unprecedented complexity—rising costs, economic inefficiencies, changing technologies and instability. This complexity is why an MBA is so vital to not only navigating but getting ahead in this ever-changing healthcare environment.

Developed for healthcare leaders, professionals and administrators, the Jack Welch MBA with Healthcare Concentration combines the leadership and business skills from our core MBA curriculum with the operations, finance, technology and policy tools needed within this specialized industry.

OUR COURSES

LEADERSHIP IN THE 21ST CENTURY
This course delves into the concepts, tools and skills leaders need today. It combines theory and practice to examine such topics as strengthening emotional intelligence, motivating people, managing conflict, aligning teams and eliciting support from colleagues and bosses.

BUSINESS COMMUNICATIONS AND EXECUTIVE PRESENCE
Communication is a learned skill that everyone can improve. This course will teach you techniques to advance your leadership presence, strategic communication, professional relationships, presentation performance and workplace crisis management.

MARKETING IN A GLOBAL ENVIRONMENT
Marketing involves a range of activities designed to convey a persuasive message to a target audience. This course covers marketing plans, qualitative and quantitative research, consumer psychology, product positioning and strategy, pricing, packaging, advertising, customer value and global marketing.

MANAGERIAL ECONOMICS
At its simplest, managerial economics is about making decisions at the individual, firm, market and economy levels in the face of constraints, be they scarce resources, pricing pressures or global competition. At the end of this course, you’ll be able to analyze and master competitive forces at both a quantitative and practical level.

PEOPLE MANAGEMENT
In this course, students explore two general areas of people management: hiring and positioning the right players for organizational needs, and managing people once the players are in place. Specific topics include sourcing and integrating new talent, managing talent inventory, performance evaluations and reward systems.

FINANCIAL MANAGEMENT I
Maximize the impact of your financial decisions by learning to speak with numbers. In this course, you will learn to read, understand and analyze financial data as well as apply managerial accounting concepts such as costing, variance analysis, forecasting and capital budgeting.

IT’S ALL ABOUT THE PATIENT
Learn to improve the patient experience, reduce costs and build better leaders within the healthcare landscape. This course is an introduction into the healthcare sector, with a focus on comprehending the core concepts of service delivery, payment and insurance and various business models.

SAVING MONEY, SAVING LIVES
There is a cost to saving lives. Deciding where to invest in technology is critical. You will explore the role of information technology in the success of the delivery system and other essential healthcare processes and understand what it means to manage information technology to accomplish delivery system objectives.

STRATEGY
Using Jack Welch’s approach to developing and evaluating a strategy, you will create an effective plan of action designed to achieve the higher-level goals of an organization. You will learn to drive strategic outcomes, identify criteria for uncovering risk, and develop plans for proactively addressing risks inherent to strategy.

ORGANIZATIONAL CHANGE AND CULTURE
From the rapid advance of technology to the steady march of globalization, powerful forces of change are shaping today’s business landscape. In this course, students learn a powerful framework for understanding and marshalling change. They also learn when to use Work-Out, Rapid Results and Six Sigma tools.

LEADING THROUGH THE BUREAUCRACY IN HEALTHCARE
Healthcare is complex and bureaucratic. You will explore various regulatory agencies, policies and guidelines and identify ways to maneuver through the healthcare industry and drive results. You will learn about the impact of the Affordable Care Act and attempts to reform the U.S. healthcare system from both a federal and state perspective.

HEALTHCARE CAPSTONE:
2 COURSES - 5 WEEKS EACH

HEALTHCARE INFORMATICS
Learn how healthcare information can drive improvements in the quality and safety of patient care. Explore how data relates to population health management. Take on quantitative concepts and use tools to solve and analyze complex data sets to drive decisions in healthcare.

HEALTHCARE CAPSTONE
This course ties together everything students have learned in the Jack Welch MBA program. Students choose a healthcare organization with a real-world leadership challenge and create a strategic plan.
