About JACK WELCH

Named “Manager of the Century” by *Fortune* magazine and coined “The CEO of CEOs” in *Forbes’* 100 Greatest Business Minds feature, Jack Welch was one of the world’s most respected and celebrated CEOs. He left a legacy built on his unmatched track record of success, enormous love of people, fierce passion for winning, and unbridled desire to change the world for the better. Using his proven management practices as a blueprint, Welch Way students learn critical business principles they can quickly apply.

4-STEP PROCESS

1

Keynote from Jack

Every section begins with a brief video from Jack. He introduces the key topics and highlights the proven practices that will drive your team and your organization to stronger performance.

2

Guiding Questions

Next, a few guiding questions get your team thinking about the material ahead. They’re asked to focus on each one, and then conduct a quick self-assessment of current skills before diving in.

3

Core Content

From there, they will immerse in the core content of the section. They’ll get detailed insights into Jack’s principles and practices, to see how his teachings apply directly to their work.

4

Playbook

Finally, get actionable steps and tools for deploying the newly learned skills. As students advance through each section, they’ll build a custom Playbook that will help maximize productivity and includes:

- **Takeaways** that help you translate Jack’s teachings into the context of your own organizational challenges.
- **A plan of action** for implementing their new management skills and tracking their progress along the way.
- **Game pages** that provide step-by-step instructions for managing your people.
